

StockWise

Meet your
guides!

AI made
easy!

Your AI-Powered Decision
Partner for Inventory.

Smart choices
start here!

The daily inventory struggle is chaotic and costly.

Our tiny hero needs help!

Spreadsheets are scary and slow.

Overwhelmed & Lost in Paperwork!

Too much waste and stockout risks

The messy truth!

Where does all the money go?

Real-life inventory nightmares!

The evolution of inventory management.

Turning messy data into clear, actionable decisions.

Stop manual checking and start deciding.
StockWise processes the chaos to reduce waste and save cash.

A continuous loop from insight to action.

Step 1: See the big picture at a glance.

Snapshot:

Instant view of overall stock health.

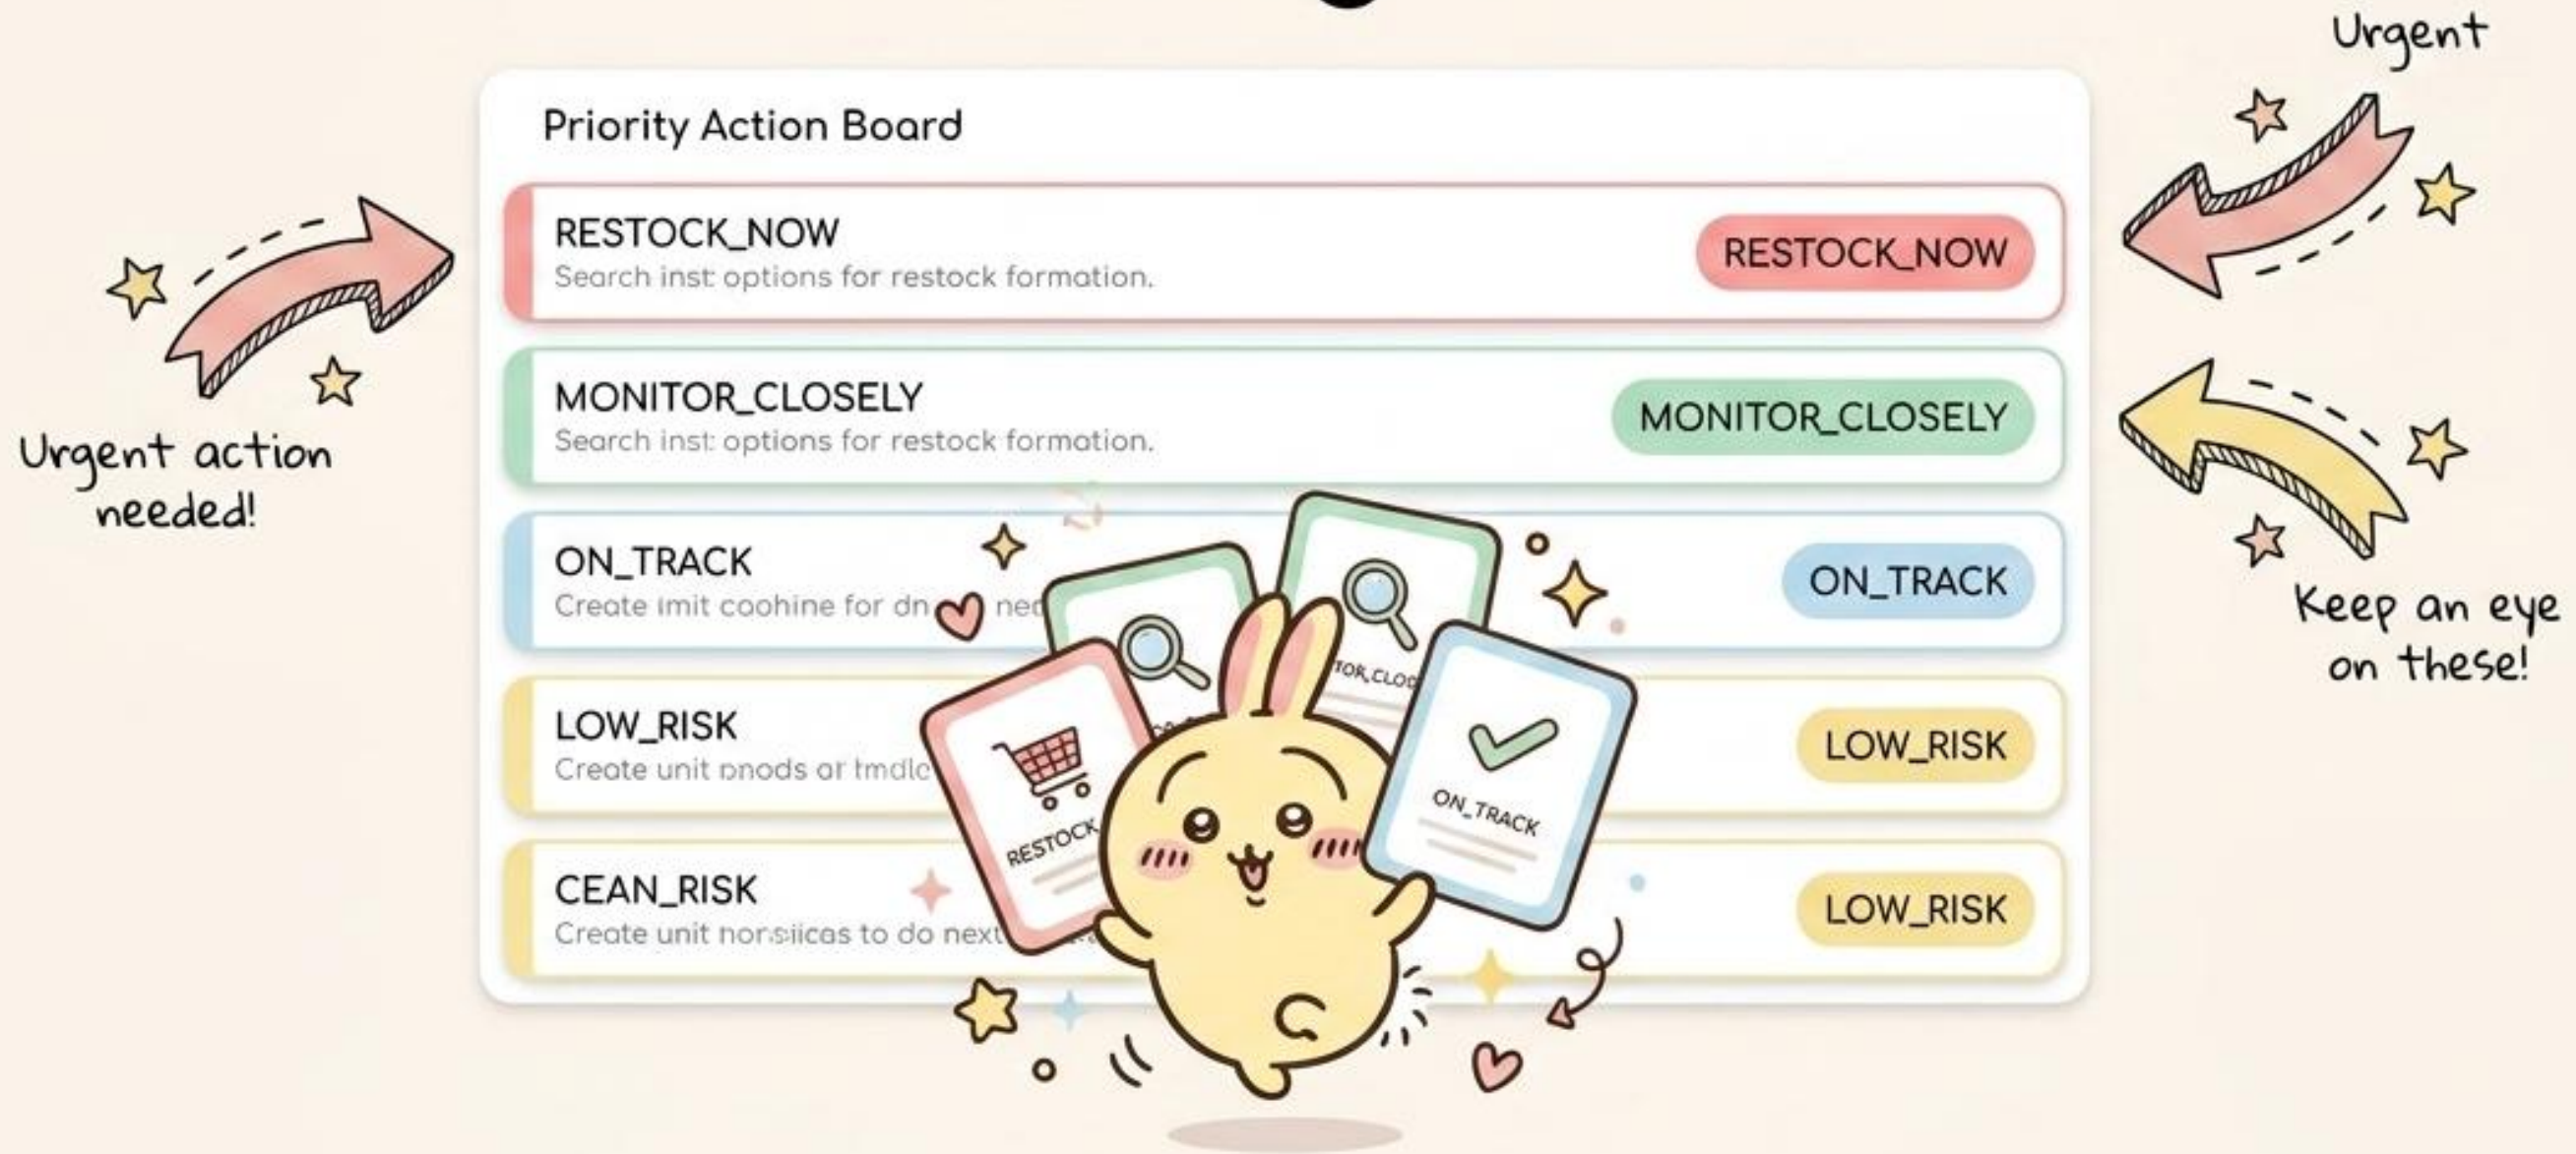

Outliers:

Automatically highlights high-value and high-waste high-waste items requiring immediate attention.

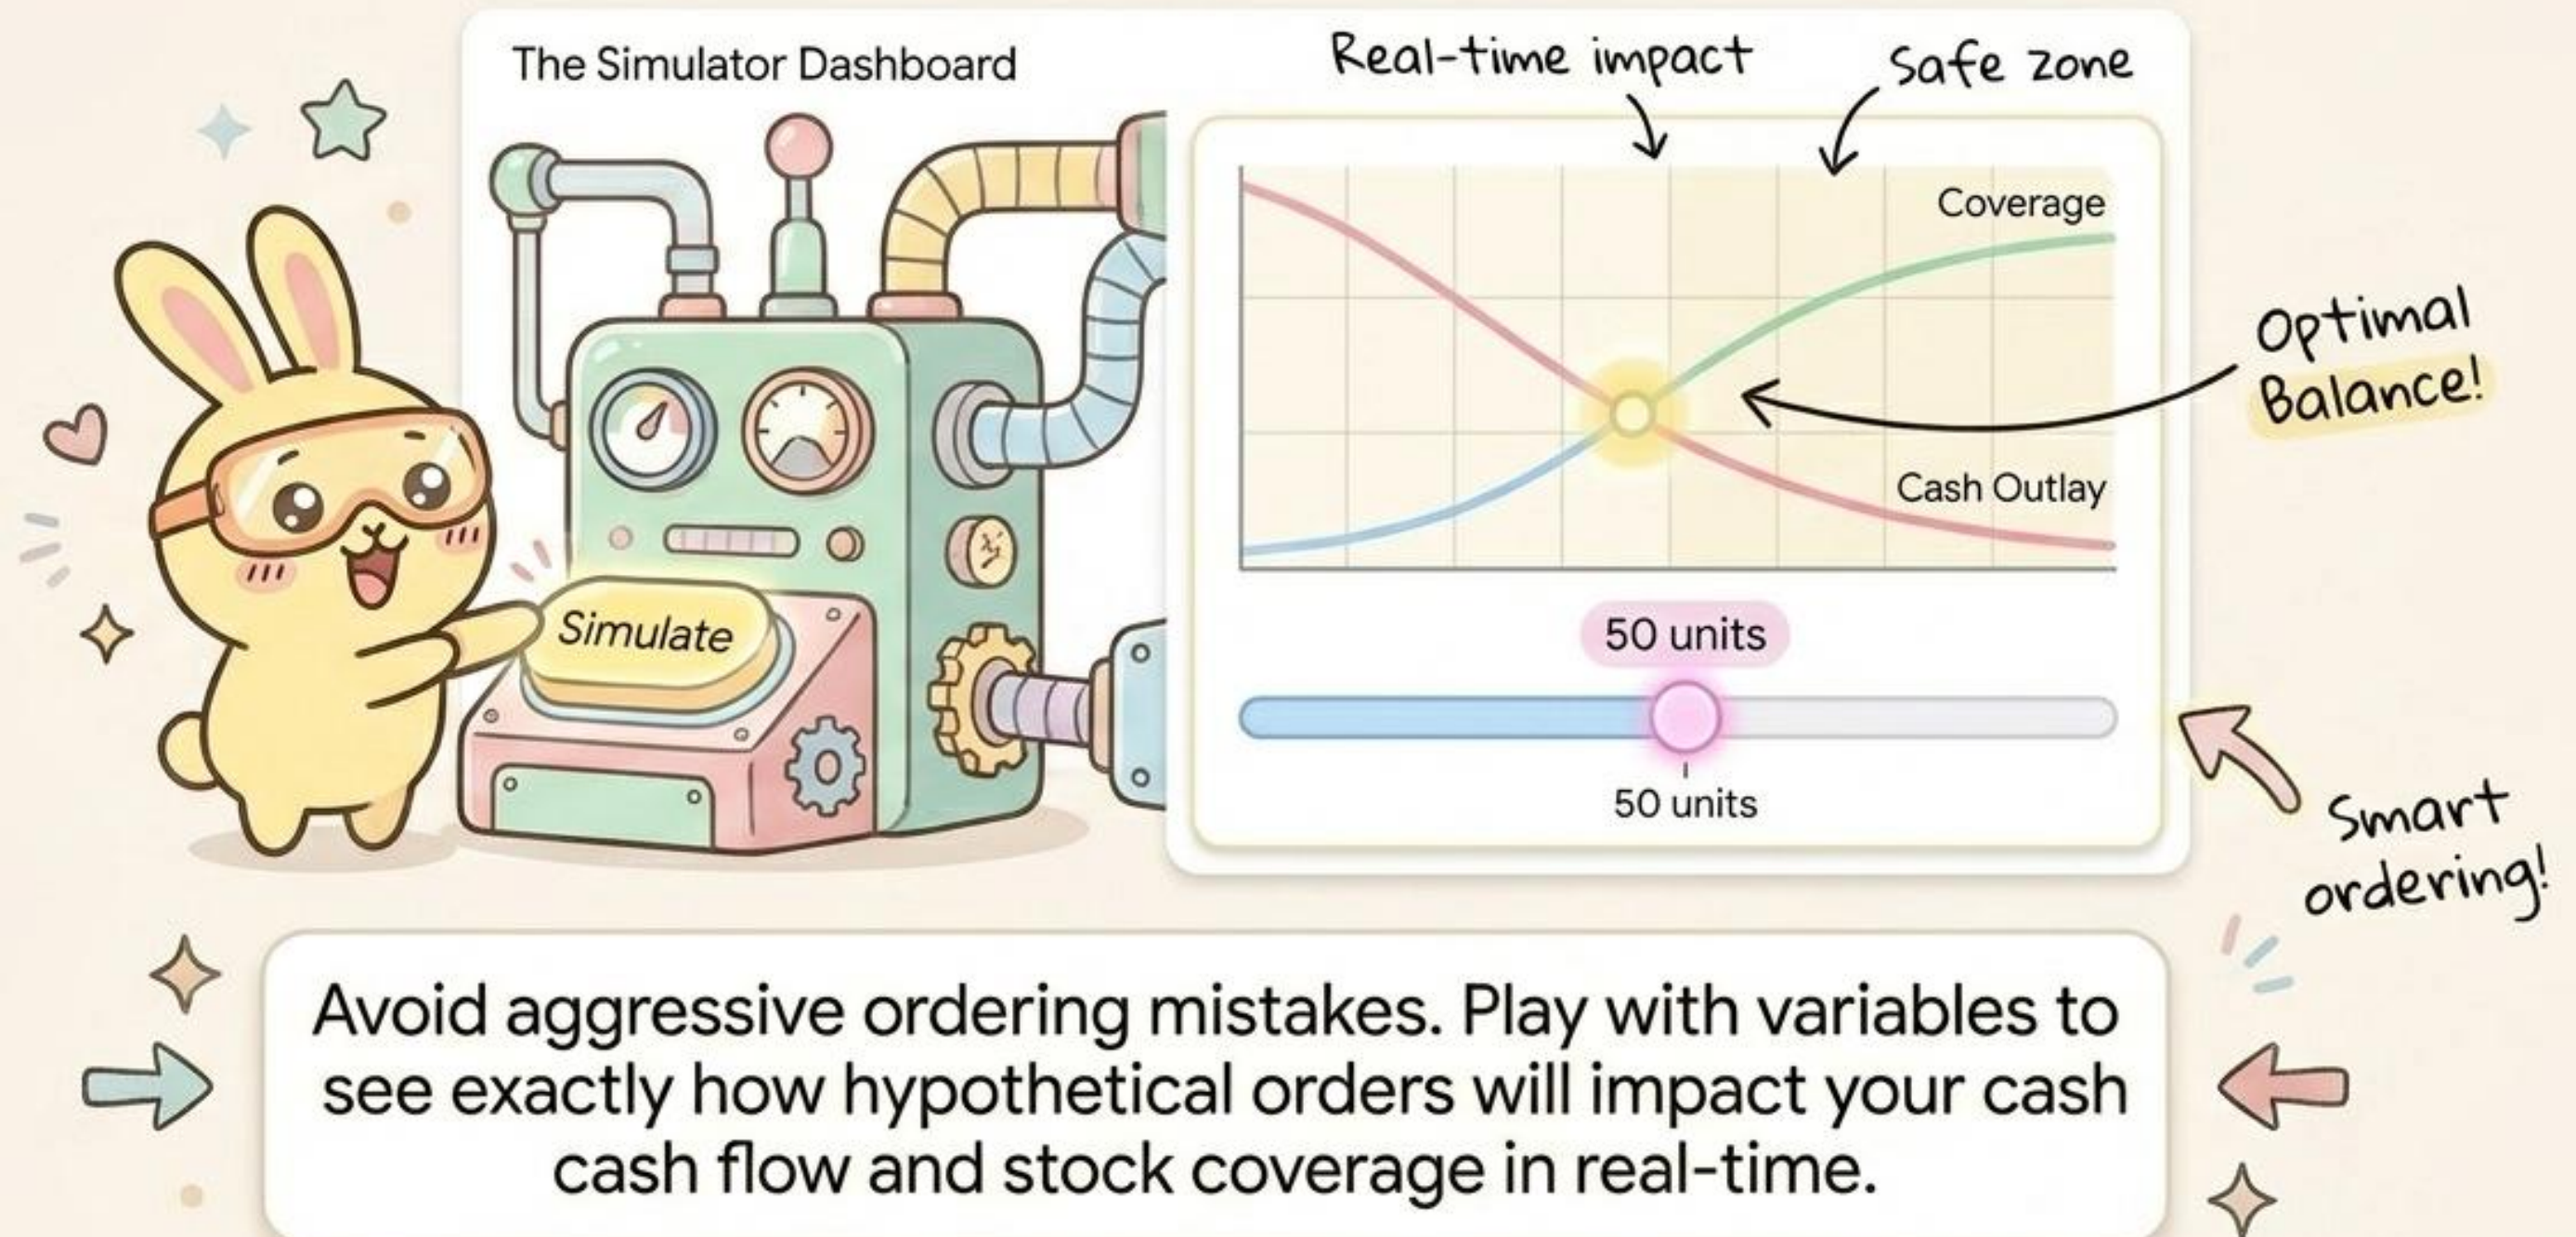

Step 2: Prioritise your actions without the guesswork.

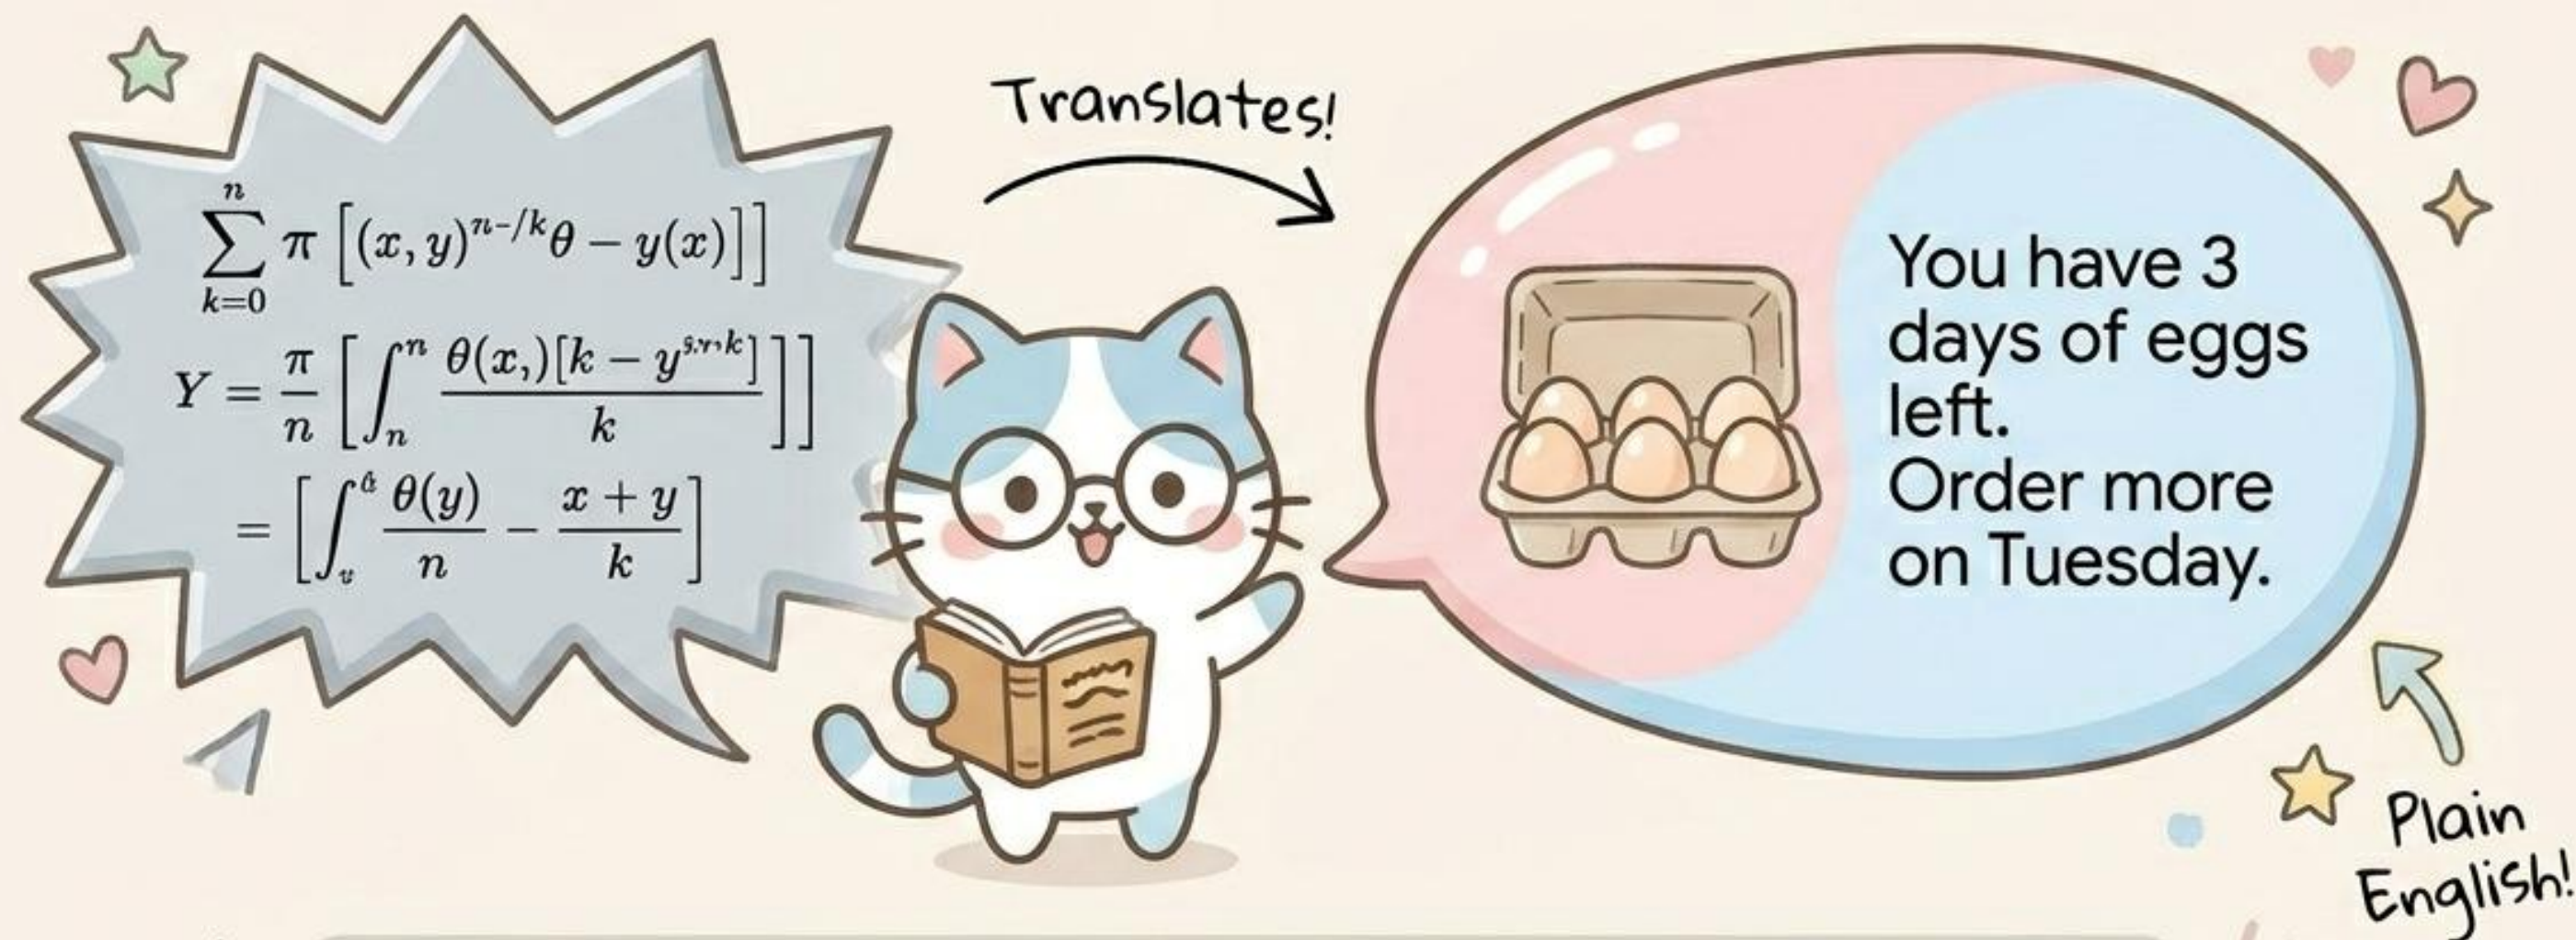

Rely on deterministic logic you can trust. The system ranks exactly what to do next based on urgency and risk.

Step 3: Test your ordering ideas before spending cash.

Step 4: AI that speaks human, not mathematics.

No more analytical jargon. The Z.AI GLM layer explains the 'Why' behind the numbers in plain language designed for non-technical users.

Meet your interactive AI AI decision partner.

Ask questions directly
about your analysis.

Interactive chat cards
for specific items make
uncovering insights as
easy as texting a friend.

A dependable safety net keeps your operations secure.

Enjoy peace of mind with a 3-Level Fallback behaviour. Strict, deterministic rules ensure your inventory remains manageable even in worst-case scenarios.

Clear boundaries ensure a focused, manageable system.

We focus exclusively on giving you the best decision-making tools, deliberately leaving out complex, unneeded hardware integrations.

Free up your capital and reduce avoidable waste.

Save Cash

Free up locked working capital.

Reduce Waste

Eliminate avoidable losses.

Grow Smarter

Empathetic AI designed specifically for small business operations.
